Applications are invited for a tenure-track position at the Assistant Professor level beginning August 16, 2014. The Mathematics Department at the College of Charleston when fully staffed has 34 full-time faculty members and offers the B.S., B.A. and M.S. degrees in mathematics. Candidates must have a Ph.D. in one of the mathematical sciences, high potential for continuing research, and commitment to excellence in teaching. Some preference will be given to individuals in the area of modeling with applications to data analytics, cryptography, mathematical biology, discrete modeling, probabilistic modeling, or operations research and who have the potential to contribute to interdisciplinary offerings, however exceptionally strong candidates in all areas will be considered. The normal teaching load is nine hours per week, and the salary is competitive. A minimal application will consist of a vita, narratives on research and teaching, and at least three letters of recommendation which, combined, must address both teaching and research.

All materials should be submitted to the College of Charleston on mathjobs.org. For demographic purposes only, candidates must respond yes or no to the Citizen/Residency field. Additional information about the department and its programs, including the interdisciplinary undergraduate Data Science program, is available at math.cofc.edu and cofc.edu/academics/majorsandminors/data-science.php. Review of applications for on-campus interviews will begin as applications are received, and applications will be accepted throughout the academic year until the position is filled.

The College of Charleston is an Equal Opportunity / Affirmative Action Employer and encourages applications from minority and women candidates.
